

TANARG

neo

Fly further !

Our microlights all meet the same flight philosophy: Pleasure, easy and safety

INTO THE LEGEND

Inspired by adventure, raids and navigations, the all new TANARG neo offers an answer for the pleasure of flying. Comfortable, modern, this trike inherits a know-how 7,000 ULM produced in Air Creation workshops. TANARG neo has redesigned everything: Comfort, Performance, Security, Silence, Aesthetics and Aero Dynamics. A new best seller!

ONE STEP AHEAD

TANARG neo represents the quintessence of the Ultralights from the weight-shift category. Proposed with the Rotax 912UL, 912ULS engines, the TANARG neo offers extraordinary potential. For cross country trips and long-distance adventures, particularly robust and reliable, this trike is also appreciated by professionals and training centres where its look and comfort are already unanimously recognized.

NEW REFERENCE

This trike will be the ideal choice to be equipped with the new generation of wings, BioniX², and the latest generation of wings iFun16 and NuviX. According to the wing choice, TANARG neo will be transformed : as well able to take off and land on short fields, to cruise long distances comfortably or to discover the fun flying with skis .. TANARG neo is the new all-rounder
